

Declaration of Compliance

RoHS "Restriction of the use of certain hazardous substances"

RoHS stands for Restriction of Hazardous Substances. RoHS, also known as Directive 2002/95/EC, originated in the European Union and restricts the use of specific hazardous materials found in electrical and electronic products. All applicable products in the EU market after July 1, 2006 must pass RoHS compliance.

Directive 2015/863 was published in 2015 by the EU, which is known as RoHS 3. RoHS 3 adds four additional restricted substances (phthalates) to the list of six. Effective 22 July 2019, RoHS 2 will be superseded by (EU) 2015/863).

REACH

European Regulation (EC 1907/2006) concerning the registration, evaluation, authorization and restriction of chemicals (REACH) entered into force.

REACH is a European chemicals legislation that aims to ensure the safe handling of chemicals. The legislation was first introduced 2007 and has as main objective to protect human health and the environment from chemicals hazardous properties.

If the demands in REACH or RoHS should come to affect our ability to deliver or have a negative impact on the quality of our products, we will inform you in good time, so that we can agree upon suitable measures.

Conflict minerals
